## PROFILE

Hello, I'm Rahul Chavda, a recent graduate in Computer Application currently pursuing my Master's. I'm a fresh frontend developer with solid skills in HTML5, CSS3, JavaScript, Bootstrap, and Tailwind CSS. I have a basic understanding of React JS and Redux, and I completed a 3-month internship in React JS development at Asume Infotech. I'm familiar with Git and GitHub. Excited to apply my skills to contribute to web development projects.

## SKILLS

- HTML
- CSS
- JavaScript
- React JS
- Python
- MySQL
- Django
- Bootstrap / Tailwind CSS

## EXPERIENCE

### FRONTEND DEVELOPER INTER

Aseum Infotech

2023(January - April)

## COLLEGE PROJECT

### CAR DEALERSHIP PROJECT

i Worked on a Car Dealership Project Using the Python Django framework. In this project my team developed a web-based application that allow Customers to browse and search for Cars, and Accessories In this web-application i develop front-end of this project using HTML CSS and Bootstrap and create model of Django framework for database.

some of the key Features implemented by team in this project include a user-friendly interface for browsing Cars and Accessories , a search function that allowed users to filter cars by Model, Price range and other criteria.

**Front-end Technologies :-** HTML5/ CSS/Bootstrap

**Back-end Technologies :-** Python (Django)

**Database:-** MySQL
